

MOHAN.A

SOFTWARE ENGINEER & FULL-STACK WEB DEVELOPER

+91 8220671061 • mohanappaye@gmail.com • Kallakurichi, Tamil Nadu, India
https://in.linkedin.com/in/mohan-a-23021a391 • https://github.com/MOHAN21075

PROFESSIONAL SUMMARY

Aspiring Software Engineer and Full-Stack Web Developer with a strong foundation in Python, JavaScript, HTML, CSS, SQL, and web development. Passionate about building responsive, scalable, and user-friendly web applications while applying problem-solving and analytical skills to real-world challenges. Eager to contribute to a growth-oriented organization, develop innovative solutions, and continuously expand technical expertise.

EDUCATION

AKT Memorial College of Engineering and Technology 2023 – 2027
B.Tech in Artificial Intelligence and Data Science • CGPA: 7.5 / 10.0
Higher Secondary (HSC): **77.4%** | Secondary (SSLC): **85.8%**

TECHNICAL SKILLS

Languages: Python, JavaScript, CSS, HTML, SQL
Frontend: ReactJS, Angular, HTML5, CSS3, Responsive Design, State Management
Backend: NodeJS, ExpressJS, RESTful APIs, JSON Web Tokens (JWT)
Databases: MySQL, Relational Schema Design, Query Optimization
Tools & DevOps: Git, GitHub, VS Code, Postman, Webpack, Chrome DevTools

WORK & INTERNSHIP EXPERIENCE

Full Stack Web Developer Intern • SkillUpgrade 2026
Remote / Hybrid

- Architected and deployed responsive full-stack features using ReactJS, NodeJS, ExpressJS, and MySQL.
- Engineered RESTful API endpoints for seamless front-to-back communication and authenticated workflows.
- Conducted code reviews, maintained Git version control workflows, and optimized database queries for fast response times.

Web Development Intern • CodSoft 2025
Remote

- Developed cross-browser responsive user interfaces with HTML5, CSS3, and modern JavaScript.
- Improved website performance and Core Web Vitals, enhancing UI responsiveness across mobile and desktop devices.
- Collaborated on agile sprint tasks and delivered clean, maintainable, modular codebase components.

KEY PROJECTS

Intelligent Cloud Resource Monitoring and Cost Optimization Platform 2026

Tech Stack: Scikit-learn, Pandas, NumPy, Flask / FastAPI, HTML, CSS, JavaScript

- Developed a cloud resource monitoring platform to track CPU, memory, storage, and resource utilization.
- Implemented real-time monitoring and analytics to identify underutilized and over-provisioned cloud resources.
- Analyzed cloud usage patterns to identify opportunities for cost reduction and resource optimization.
- Integrated data visualization dashboards to present resource usage, performance metrics, and cost insights.
- Designed an intelligent recommendation system to suggest resource scaling and optimization strategies.
- Applied machine learning/data analytics techniques to support predictive resource management and cost forecasting.
- Focused on improving cloud efficiency, performance, scalability, and operational cost management.

Modern Developer Portfolio Website 2025

Tech Stack: HTML5, CSS3, JavaScript, GitHub Pages

- Designed and launched an interactive, responsive developer portfolio showcasing web applications and technical skills.
- Optimized asset loading and typography rendering to achieve 95+ Google Lighthouse performance scores.

CERTIFICATIONS & ACHIEVEMENTS

- MERN Stack Web Development Specialization
- Prompt Engineering & Generative AI Best Practices
- Online Portfolio Development & CI/CD using GitHub

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.
